** Internet account speeds NOT Guaranteed. Internet Service Agreement Rules apply.

Customer responsible for Anti-virus protection. We reserve right to temporarily disconnect infected accounts. Pre-certification is required to ensure that the cable which feeds the cable-modem meets specified criteria. Once pre-certification is completed, the customer can either do a self-install, or we can arrange a certified computer technician to do the install. The install consists of hooking up 1 cable-modem to 1 computer, and includes an ethernet adapter if required. All networking of computers is strictly the customers responsibility. *Sweetwater Cable TV reserves right to charge for on-site visits for non-cable resulting issues of the customers network.*
